ABOUT ME

Computer Systems Engineering student at NED University building beyond the classroom, from AI models and hackathon projects to client-facing web apps. Passionate about secure, scalable solutions and seeking opportunities as a frontend or full-stack developer while growing into AI-driven development.

EDUCATION

(2022 - 2026)

Ned University of Engineering and Technology

Bachelor of Computer and Information Systems Engineering

(2020 - 2022)

Govt. Degree College Malir Cantt - Pre-Engineering

WORK EXPERIENCE

Virtuosoft | (3 months)

Frontend Developer

- Built 3+ responsive landing pages using React and Next.js, optimizing component structure for faster load times.
- Integrated APIs and handled client-server communication
- Debugged and improved application performance
- Managed codebase using Git and GitHub, working across branches with pull requests and code reviews

SKILLS

- Frontend: React.js, Next.js, Angular, JavaScript, HTML5, CSS3, Tailwind, Bootstrap
- Backend: Node.js, Firebase, MySQL, MongoDB
- Tools: Git, GitHub, VS Code, Postman, Figma, Wireshark, Cisco Packet Tracer, Ubuntu Linux
- Soft Skills: Teamwork, Leadership, Project Management, Adaptability

PROJECTS

- SmartStock Manager - AI powered retail ecosystem for stock analysis, fault detection, dynamic pricing and conversational insights (FYDP)

(AI-driven Smart Stock Manager with demand forecasting, fault detection, and a dynamic pricing chatbot to optimize inventory, detect anomalies, and adjust pricing in real time.)

- AI SMS Spam Detection System - Machine learning model for SMS classification
- Agro Market (Hackathon Project) - Buyer-farmer marketplace with authentication and dashboards
- Real Estate Website - Property listing with detailed views
- E-commerce Website - Backend integration and API handling
- Language Learning Website - Quiz system with Firebase authentication

CERTIFICATIONS

- Google AI Essentials - Coursera
- Build4Better Hackathon Participation - Codesphere 2.0
- Mastering AI Email Agents - DataCrumbs
- N8N Chatbot Lab - DataCrumbs
